## Education -

- Currently a senior at **Texas Tech University**
- Major in **Computer Science**
- Minor in **Mathematics**

|             | Date      |
|-------------|-----------|
| Graduating: | May 2026  |
|             | Aug- 2021 |
|             | Current   |

## Skills -

- HTML, CSS, JS, Java, JavaFX
- C++, C, Assembly, Python
- Microsoft Word, Excel, and PowerPoint
- Animation and Video Editing proficiency

## Projects -

### Personal:

- |                                                               |            |      |
|---------------------------------------------------------------|------------|------|
| • <b>Wordle:</b> systems comprehension                        | Dec - Jan  | 2023 |
| - C++ runs in the terminal                                    |            |      |
| • <b>Web page:</b> full stack, algorithms / data structures   | Dec - Curr | 2021 |
| - Node and Express Restful API                                |            |      |
| - C search algorithm                                          |            |      |
| - Pure JS and CSS frontend with minimal jQuery                |            |      |
| • <b>C++ renderers:</b> vector and matrix math, low level OOP | Oct - Dec  | 2022 |
| - Perlin noise cube rendering on bitmap                       | Jan - Mar  | 2024 |
| - Renders .obj's with lighting in terminal                    |            |      |
| • <b>Linear Algebra solvers:</b> higher math, recursion       | Aug - Dec  | 2024 |
| - C terminal tool                                             |            |      |
| - Performs matrix operations and solves systems               |            |      |

### In Class:

- |                                                             |           |      |
|-------------------------------------------------------------|-----------|------|
| • <b>Customer Order System:</b> OOP, native app development | Jul - Aug | 2025 |
| - JavaFX                                                    |           |      |
| - account/login-based system                                |           |      |
| - native Windows ".exe" and Mac ".dmg" binaries             |           |      |

## Experience -

- |                                                           |            |           |
|-----------------------------------------------------------|------------|-----------|
| • <b>Texas Workforce Commission</b> job training with CVS | Jul - Aug  | 2019      |
| • <b>Kroger</b>                                           | Nov - Apr  | 2019-2020 |
| • <b>Kroger</b>                                           | June - Aug | 2022      |
| • <b>RESTful API's and Full Stack</b> development         |            |           |
